

Supplemental Immunization Requirement (Meningitis)

In accordance with the Texas Higher Coordinating Board (THECB) **1 dose of meningitis vaccine is required if younger than age 22 prior to first day of classes.**

The vaccine must be administered within 5 years and at least 10 days prior to enrollment.

Acceptable documentation of the Meningitis vaccination:

- A form showing the signature or stamp of a physician or his/her designee, or public health personnel that shows the month, day, and year the vaccination dose or booster was administered
- An official immunization record generated from a state or local health authority that shows the month, day, and year the vaccination or booster dose was administered
- An official record received from school officials (includes records from out of state)

Students 22 years of age and older upon enrollment are not required to have the meningitis immunization.

For more information regarding the Texas meningitis vaccination requirement, please visit: <https://www.highered.texas.gov/institutional-resources-programs/public-universities-health-related-institutions/other-institutional-resources/bacterial-meningitis/>

Please submit the above documentation to Student Health Services via email at StudentHealth@utsouthwestern.edu or fax at 214-645-5876.
