

## **Teaching and Didactic Activities**

---

### **Departmental Fellows Conference**

- This ongoing course provides an opportunity to interact with fellows and faculty from other disciplines in the Department of Pediatrics. In addition, the program hosts core lectures and forums in ethics, statistics, designing and implementing clinical research, and career development. This conference culminates in a Research Day in May, when all the third-year fellows present their research projects.

Notably, since this course was established, at least one of our pediatric hematology/oncology fellows has won the “top 5 presentations award” each year at UTSW’s annual campus-wide gatherings of fellows.

Former fellow Dr. Gauri Sunkersett (L) with Dr. Rosenfeld (R) won best Oral presentation.

### **Department of Pediatrics Research Day**

- This research retreat takes place twice a year on a Saturday morning. It is an amazing forum in which faculty and fellows from all the divisions in the Department of Pediatrics gather to share and celebrate the research endeavors being pursued in pediatrics.

### **Grand Rounds**

- One of the mainstays of the Department of Pediatrics is its Grand Rounds held every Wednesday morning. It is an opportunity for attendings and faculty from outside UTSW to share up-to-date, evidence-based medicine practices and groundbreaking research.

### **Multidisciplinary Conference**

- This unique conference is held every Tuesday at noon and features a group of faculty from different disciplines sharing their experience with unknown and challenging cases, morbidity and mortality reports, and quality improvement practices and practice guideline developments.

### **Fellowship Program Core Curriculum**

- This conference is held every other Wednesday led by our faculty that address practice management, statistics, grant writing, writing manuscripts, CV writing, work-life balance, humanism, breaking bad news, introductory to billing, financial planning, and array of other topics

# Pediatric Hematology-Oncology Conference Schedule

## Sample of our weekly events

Monday	Tuesday	Wednesday	Thursday	Friday
	Fellows' Teaching Conference Board Review	Pediatrics Dept Grand Rounds	Neuro-Oncology Tumor Board	Fellow Journal Review Session
	Hematology Oncology Grand Rounds			Musculoskeletal Tumor Conference
Bleeding Disorder Conference	Multidisciplinary Case Conference	Fellow Tumor Board	Sickle Cell Conference	Departmental Fellows' Conference
Hematology Conference	BMT Conference	Morbidity & Mortality Conference	Liquid Tumor Conference	
	Solid Tumor Conference	Fellow Journal Club		

### Monday

PM – Bleeding Disorder Conference

PM – Hematology Conference (*Morphology Conference and Hemoglobin Electrophoresis Conference*)

### Tuesday

AM – Fellows Teaching Conference and Board Review

AM – Pediatric Hematology Oncology Grand Rounds

PM – Multidisciplinary Case Conference

PM – Bone Marrow Transplantation Conference

PM – Solid Tumor Conference

### Wednesday

AM – Pediatrics Departmental Grand Rounds

PM – Professorial Rounds/ Fellow Tumor Board/M&M Conference/Journal Club \*alternate

### Thursday

AM – Neuro/ Oncology Tumor Board

PM – Sickle Cell Conference

PM – Liquid Tumor Conference

### Friday

AM – Fellow Journal Review Session

AM – Musculoskeletal Tumor Conference

PM – Departmental Fellow's Conference
