**Master of Physician Assistant
Studies Degree Program**

Established 1972

Definition

Physician Assistants/Associates:

- A PA is a medical provider who is nationally certified and state licensed to practice medicine. Today there are more than 100,000 certified PAs in the United States.

Physician Assistant/Associate Roles

- Take medical histories
- Perform physical examinations
- Order and interpret diagnostic studies
- Prescribe medication
- Develop and implement treatment plans
- Confer with physicians and other clinicians
- Provide patient education

Mission Statement

The mission of the Physician Assistant Studies Program is to:

- Excel in the art and science of pa education.
- Promote inter-professional primary health care delivery to a diverse and dynamic population to improve health outcomes.
- Foster continued commitment to diversity, equity and inclusion.
- Foster a dedication to evidence-based medicine, quality improvement and patient safety.
- Cultivate a commitment to faculty, staff and student wellness.
- Encourage leadership, service, and excellence among our faculty, staff, students and graduates.

National & State Demographics

- Approximately 158,470 certified pas
- ~12,000+ PAs in Texas
- ~10,345 Certified Pas in Texas
- ~9,610 licensed PAs in Texas
- 70.1% female
- 35.0 PAs/100K population in TX (ranks 42)
- 6.6% of total PAs in the U.S
- In 2021, there were 48 Certified PAs per 100,000 population in the U.S., compared to 37 in 2017.
- ARC-PA estimates that the number of PA educational programs will grow from 282 in March of 2022 to 317 by 2024, thus increasing the number of individuals who may join the Certified PA workforce.

Employment Outlook

2023 U.S. News Rankings

- #2 in Best health care jobs
- #4 in the 100 best jobs
- #4 in best stem jobs
- Forbes.com rated the Master of Physician Assistant Studies the top 10 best master's degree in the U.S.
- HIGHEST paying jobs National Median Base Salary: \$121,530

Program Requirements

Application Deadline

September 1st

Admitting Semester

Summer (May)

Program Length

30 continuous months

Required minimum overall GPA: 3.0

Required minimum science GPA: 3.0

Admission Requirements

- Required courses must be completed by the date the application is submitted; A U.S. or Canadian-acquired Bachelor's degree must be obtained by May in the year of enrollment.
- Professional or volunteer hands-on patient care experience strongly recommended.
- Grade of "C" or higher in all required courses.
- Graduate Record Exam (GRE). The GRE is not required of applicants who have a U.S. acquired bachelor's and master's degree or higher.
- All prerequisite courses must have been completed within the past 10 years.
- Prospective applicants who have interviewed for our program for two cycles and have not been offered acceptance, will not be reviewed for a third application cycle.

Required Courses for Admission

- *Human Anatomy/lab=4 semester credit hours
 - *Human Physiology/lab=4 semester credit hours
 - *General Chemistry/lab=8 semester credit hours
 - *Organic Chemistry/lab=4 semester credit hours
 - *Microbiology/lab=4 semester credit hours
 - Genetics=3 semester credit hours
 - Psychology=3 semester credit hours
 - Statistics=3 semester credit hours
- *For Science Majors

Course Deadlines

- Required courses and those in progress must be completed by **the time of application is submitted.**
- All transcripts must be received by **September 1.**
- All other requirements (application, official GRE scores, letters of reference) remain **September 1.**

Considerations

- Quality and quantity of academic preparation
- Health care experience
- Awards, honors, service, leadership
- Letters of reference
- Personal statement/essay
- Interview for most competitive

Competitive Applicants

- Bachelor's degree with greater than 50 semester hours in science courses
- Greater than 3.25 overall & science GPAs
- Hands-on patient care experience
- Evidence of Leadership
- Superior references
- Mature, insightful essay
- Evidence of community service
- Superior people skills

What We're Looking For

A strong work ethic

Professionalism

Conscientiousness

Maturity

Commitment

Evidence of Service

Humility

Adaptability

Tolerance of Ambiguity

Admissions Process

- Early admissions confirmation offered to the most competitive candidates following interview dates.
- Early application is strongly encouraged. Do not wait until the deadline if application is otherwise complete.

Clinical Rotations

Family Medicine: 8 weeks

- Multiple private practice sites
- Outpatient-based

Clinical Rotations

Internal Medicine/Hospitalist: 8 weeks
Parkland Health & Hospital System,
Clements University Hospital, Baylor
Scott & White Medical Center

- Hospitalist inpatient teams led by staff attending physicians
- Students housing provided at Scott & White

Clinical Rotations

Primary Care Preceptorship: 8 weeks

- Designated primary care specialty setting of either Family Medicine, Internal Medicine, Pediatrics or Women's Health

Clinical Rotations

Emergency Medicine: 4 Weeks

- Clements University Hospital
- Parkland Health & Hospital System
- Presbyterian Hospital
- Methodist Medical Center
- Charlton Methodist Hospital
- Medical Center-multiple locations
 - 4 weeks ER: 10 twelve-hour shifts

Clinical Rotations

Infectious Diseases: 4 weeks

- Parkland Health & Hospital System
- Dallas Veterans Medical Center
- Clements University Hospital

Clinical Rotations

Pediatrics: 4 weeks

- Private practice settings

Clinical Rotations

Psychiatry: 4 weeks

- Hospital and Correctional Facility based
 - 2 weeks inpatient
 - 2 weeks outpatient

Clinical Rotations

Surgery: 4 weeks

- Parkland Health & Hospital System
- Zale Lipshy University Hospital
- Clements University Hospital
- Dallas VA Hospital

Clinical Rotations

Women's Health: 4 weeks

- Clements University Hospital
 - 2 weeks inpatient Obstetrics
- Community Practices
 - 2 weeks outpatient Gynecology

Clinical Rotations

Elective: 4 weeks

- Approximately 25 to choose from
- Popular choices include dermatology, surgery specialties, emergency medicine
- International possibilities

Clinical Highlights

Stellar Sites & Preceptors across the state
of Texas

 - 2011-100%

Program Accreditation

Accreditation required for PA licensure
and certification

UT Southwestern has maintained
continuing accreditation since 1973,
with no adverse accreditation actions

Application Service

- Web-based application system sponsored by the Association of PA Programs.
- Allows applicants to apply to any number of participating PA programs.
- Beat the deadline; early application recommended.
- Apply to several programs if being a PA is your ultimate goal. Applying to only one program is not advised.
- <https://caspa.liaisoncas.com/applicant-ux/#/login>
- CASPA Facebook page:
www.facebook.com/CASPAOnlineApp
- Video instructions for entering coursework in the CASPA application:
http://www.youtube.com/watch?v=JPXppeYKbZQ&feature=player_detailpage

CASPA Application Outcomes

- 25% chance of acceptance if only applying to one program
- 49% chance of acceptance if applying to 12 programs
 - (No additional advantage was noted if applying to more than 12 programs)

Application Cost

Number of Designated CASPA Programs

1. \$184
2. \$245
3. \$306
4. \$367
5. \$428

Disclosure

- PA education is intense, fast-paced, and difficult for the duration of enrollment
- The expectation of having life balance as a PA student is often not realistic—that comes with the end point—graduation and employment
- It is very important to have all support systems in place and all personal health conditions well-managed prior to starting the curriculum

UT Southwestern Faculty

- Carolyn Bradley-Guidry, DrPH, MPAS, PA-C
- Veronica Coleman, MPAS, PA-C
 - Director of Admissions
- Bethany Grubb, MPAS, MPH, PA-C
