

Cancer Immunotherapy Postdoctoral Position

A postdoctoral position in the field of cancer immunotherapy is available in the Department of Radiation Oncology at UT Southwestern Medical Center (Dallas campus).

Candidates must hold a Ph.D.; individuals with a Ph.D. specialization in immunology, cancer biology, nanomedicines, and substantial hands-on experience with in vivo animal tumor models are encouraged to apply. The position will commence in January 2024.

Key responsibilities associated with this role:

- Conduct mechanistic and therapeutic in vitro and in vivo studies by combining therapeutic ultrasound and nanomedicines.
- Develop manuscripts tailored for scholarly publication to advance the field.
- Guide both graduate and undergraduate students actively participating in the laboratory's endeavors.
- Renewal of this annual position will be contingent upon performance evaluations and availability of funding.

Information on our postdoctoral training program, benefits, and a virtual tour can be found at <http://www.utsouthwestern.edu/postdocs>.

Interested individuals should send a CV, statement of interests, and a list of three references to:
